Description

Height 90 cm. Ø 75 cm, weight 180 kilograms, delivered in 5 pieces to be easily assembled at home. A free-standing lantern made of real granite with elegantly curved lines. It features a wooden window, stone latticework and a temple-style pointed roof. An electric cable can be passed through the centre to light a small lamp inside.

Our garden elements (ponds, granite lanterns, stones, and stepping stones) are generally stored outdoors. Indeed, the patina and aged appearance that develop over time (lichens and moss) add an extra layer of authenticity, which is generally highly appreciated in the art of traditional Japanese gardens.
