MAILLOT BONSAI

Pinus pentaphylla du japon ref : 03070171

ref. 9594

[+] Show on the website

Description

Height of the tree without its pot : 910 mm. Width of the branches : 620 mm. Japanese quality non-enamelled pottery of : Ø 460 x 95 mm. Short needles and softly blue-toned. Sokan style. Bonsai aged of more than 50 years old with a formed bark, from yamadori seeding removed more than 30 years ago. Tree well-ramified with a well-conical trunk. No grafting marks because it comes from natural seeding nor very strong wire injuries or cutting wounds. Trunk's diameter : about 140 mm with a nebari of : 280 mm.

Bonsai recently totally formed, cut and ligatured by master Tomoya Nishikawa in february 2018.

These pictures were taken in december 2020 and the three last ones of the cut and formed tree in march 2018.
