Description

Small grain bonsai soil for mame bonsai and small pots.

Small bag +/- 1.6 litres. Grain size 1/3mm. SUPERIOR QUALITY, DRIED FOR MORE THAN 2 YEARS. Weight according to the rate of moisture of +/- 1.2 kilos.

Origin: natural volcanic earth from the mountainous regions of Japan.

Benefits: soil drainage and root ventilation for the healthy growth of your bonsai.

How to use: use alone, with Kanuma earth for acers, or add gravel and large-grained sand but not compost. This earth is not very nourishing and a Biogold fertiliser should be used regularly.

Species: for all conifer and caduc trees (for rhododendrons and azaleas you'll need Kanuma earth).

Please kindly note that this is a heavy product to send and we charge extra for postage.
