### Description

Height : 500 mm\*650 mm. Japanese non-enameled pot: 470\*340\*130 mm.

Short and softly blue-toned needles. Usura moyogi style(the trunk is softly sinuous).

This bonsai is more than 50 years old with its formed bark.

It comes from yamadori seedlings of more than 30 years ago.

This piece is well ramified and the trunk has a good conicity.

No grafting mark because it is a natural seedling, nor very strong cutting wound or wire mark. Diameter of the trunk: about 150 mm. Nebari of about 250 mm. Quality subject.

This bonsai is for a bonsai lover who will take time to cut it and maybe ligature it to place the trays. This tree is particularly promising.

Photographed in February 2022.

Shelf not included.
