Description

Leaves are light green in spring, turning dark green in summer with new shoots light green and fiery copper-orange in autumn. Superb both in spring foliage and in its fall coloring. This variety will prefer a sunny position. Variety still rare in culture imported from the USA from the collection of BUCHHOLZ nurseries. Very large leaf with exceptional autumn coloration maturity.

Technical description

Species	Acer japonicum
Variety	Acer japonicum emmet's pumpkin
Leaf colour	Green leaves
Leaf shape	Palmated
Adult height	Greater than 4 meters
Shape	Natural
Exposure	Sun
