

MAILLOT BONSAI

Juniperus chinensis itoigawa ref 30080235

Juniperus chinensis itoigawa

ref. 12027

[+] Show on the website

Description

Japanese Juniper Variety Itoigawa with very thin scales, most suitable for bonsai. Tree height: approximately 260 mm.

Width: approximately 270 mm.

Pot size: 180*130*50 mm.

Moyogi style.

This subject is over 20 years old, originating from Japanese cuttings, with its beautiful bark and trunk shari.

The gracefully sinuous movement adds a lot of rhythm to this bonsai.

Trunk diameter: approximately 15/20 mm.

Perfectly branched and in a high-quality brown-colored pot.

There is shari on the trunk and branch jins.

Currently, there are no ligatures, significant cutting injuries, or marks of wires.

Photographed in August 2023.
