Description

For watering-can 4 and 6 liters made of steel. Dimension of the throw 50 mm. Diameter interior mouth: 14 millimeters. Outside 16 mm. Body steel and grid made of yellow copper. Very thin throw. "The technique of the laser permits a regularity and a precision of drilling that give to this new nozzle a throw and a sweetness of watering more adapted to the bonsaïs ".

Our watering can roses are handcrafted and may therefore show slight irregularities that reflect their manual production.
