# MAILLOT BONSAI

## Pinus pentaphylla ref: 10090191

*Pinus pentaphylla pin blanc du japon*

*ref.* 10240

[+] Show on the website

### Description

Height of the tree : 490 mm. Width of the branches: 520 mm.

Japanese sand color non-enamelled pot from Nagoya, diameter: 290x90 mm.

Aerial roots Neagari style.

Selection of seedlings with particularly short and soflty blue toned needles, beautiful.

This bonsaï is more than 40 years old.

Beautiful ramifications with a formed bark.

Well-conical trunk.

Diameter of the trunk: about 40/50 mm at the base of the trunk. Nebari: 180/200 mm.

This superb subject, repoted in akadama soil in April 2017 does not have any strong wire mark nor cutting wound.

If you want, you can shape it and move the trays by ligaturing them, which would make  even more beautiful this already majestuous bonsaï.

Admire the beauty of the roots with a beautiful bark.

Currently shaped and ligatured partially by Master Tomoya Nishikawa in September 2019. Photographed with the mushrooms on September, 22th of 2019.

Shelf non-included.
