

Rhododendron kinsai 190402011

Rhododendron laeteritium kinsai

ref. 10349

[\[+\] Show on the website](#)

Description

Height of the tree without its pot: about 660 mm. Width: 750 mm.

Quality non-enamelled pot : 700*440*80 mm.

Moyogi style with a really big large trunk, diameter: 120/130 mm at the collar.

Nebari of 320/330 mm.

Kinsai variety with flowers composed of linear orange-toned red petals.
Harmonious roots set, formed trays.

The cutting wounds are healing on the trunk, currently ligatured. Without strong wire mark.

Easy to grow, it requires a full-light exposure and a good fertilization after flowering.

Shelf non-included. Photographed in April 2020.
