

## Acer palmatum 3 l pot

› Young trees

ref. 10873

[\[+\] Show on the website](#)

### Description

Delivered in a plastic 3 l pot.

Height 40/60 cm.

Acer palmatum is an excellent choice for planting in a forest bonsai style. It has pink-green foliage in spring, green in summer with pinky brown young shoots, followed by a yellow-orange-red canopy in autumn. The plants are descended from seedlings and may vary slightly in leaf shape and colour.
