### Description

Height of the only tree : 740 mm. Width of the branches : 520 mm.

Dimensions of the Chinese brown artisanal non-enamelled pot : 320\*235\*90 mm.

Moyogi style.

Nebari at the base of the trunk : 210 mm.

Superb white pine bonsaï with several beautiful trays, a perfectly formed bark and a strong movement of the trunk. Selected among natural seedlings from yamadori with short needles. Currently ligatured with copper wire.

This bonsaï with its huge base of the trunk presents an amazing character as a twisted snake erected to sky. Its jin, at the base of the trunk gives it an experienced character.

Not any strong wire or cutting wound.

Origin : Master Mori's nursery, famous for its conifers.

Shelf not included. Photographed in June 2021.
