

Chamaecyparis hinoki ref: 09070212

Hinoki cypres

[+] Show on the website

Description

Height of the only tree: 700 mm. Width: 510 mm. Japanese quality artisanal enamelled pot, dark brown color, coming from Tokoname : 490*340*75 mm. Moyogi style with a perfectly formed trunk. Ramified and graceful trays. Diameter of the trunk: 40 mm. No ligature marks or strong wounds. Good roots base, repoted in Spring 2021 in pure akadama soil. Very beautiful japanese hinoki cypress with a slow growth. It is an affecting tree with its slender trunk. It comes from the famous Master Murakawa's nursery in Japan. He formed this tree by cutting it successively in order to obtain a perfectly harmonious tree.

Photographed in July 2021. Shelf not included.
