

Hosta goodness gracious

Hosta goodness gracious

ref. 11063

[\[+\] Show on the website](#)

Description

Coming from a hybridization of Hosta Satisfaction.

Height : about 50/60 cm.

Width : about 70/90 cm.

Dimensions of the leaves : about 30x20 cm.

Beautiful large leaves, dark green in the middle and clear yellow on the corrugated sides. This Hosta keeps a beautiful coloration all along the season. The leaves are particularly veined and the dark green in the middle seems to be a paintbrush touch, remarkable aspects of this variety.

Big rhizome delivered in a 1 liter plastic pot.
