Description

Coming from a hybridization of Hosta June fever.

Arrived from The Netherlands.

Height : about 35/40 cm.

Width : about 70/80 cm.

Dimensions of the leaves : about 15 x 8 cm.

The leaves are oval with a thin peak. They are prettily yellow/green variegated in the middle and dark green on the sides. The middle of the leaf turns to creamy white in the second half of the season.

Lavender color flowers in summer.

Big rhizome delivered in a 1 liter plastic pot.
