Description

Height of the tree only: 270 mm. Width of the branches: 290 mm.

Artisanal firmed non-enameled pot from Yixing: 180*60 mm.
Diameter of the trunk: about 30 mm.

Moyogi style.

Juniper with really graceful and a natural shari on its trunk and some jins.

Formed bark because this tree is more than 30 years old.

Without strong wound nor wire mark or cutting wound.

It comes from Master Shiraichi's nursery.

Admire the trunk with the natural shari, unique character of this bonsaï.

Do not mistake with the tanukis, which wood is artificially inlayed.

The whitening with jin product of the dead woods, softly toned with charcoal will give it an ash color.

Shelf not included. Photographed in March 2022.
