

Carpinus turczaninowii ref :13100172

Carpinus turczaninowii

ref. 11676

[\[+\] Show on the website](#)

Description

Height of the tree only : 510 mm * 450mm.

Enamelled pot : 315*255*80 mm. Moyogi style.

Deciduous green foliage during spring and summer with a fast growth.

Splendid bonsai with a very natural charm.

Japanese and Chinese hornbeams not only have a hanging catkin flowering but also beautiful fall colours.

No strong cutting wounds or strong wire marks.

This subject was repotted in Akadama soil during spring 2016.

The *carpinus turczaninowii* has a special characteristic : it gets a superb white veined bark as he gets older, like our common birches.

Shelf not included.
