

Pinus pentaphylla 07040223

Pinus pentaphylla

ref. 11688

[\[+\] Show on the website](#)

Description

Height of the tree only : 660 mm. Width of the branches : 750 mm.
Multi-trunks Kabudachi style. This bonsai has 9 trunks.

Diameter of the trunk : 20-70 mm. Nebari : 250-70 mm.

Quality non-enamelled fired pot : 660*430*80 mm.

Yamadori coming from seedlings of more than 40-50 years old.

The trunks of this pine is very well conical and their bark is formed.

It has several trays and present a splendid natural aspect.

Its old character will give emotion to its owner. This kind of pine is quite rare in a collection and will make happy a bonsai lover. A big crush of Guy Maillot.

It was selected for the beauty of the short and softly blue-toned needles. There are some jins on several parts of the tree.

Depending of your preferences, you can strip the bark off the sharis and whiten it or let it natural like it is currently. No strong cutting wound or ligature wire mark.

This bonsai was completely reformed and ligatured by Master Katoh in Japan in September 2020.

Photographed in June 2022. Shelf not included.
