

Pinus pentaphylla 07040224

Pinus pentaphylla

ref. 11689 

[\[+\] Show on the website](#)

Description

Coming from Master Fujiita's nursery.

Height of the tree : 600 mm. Width of the branches : 800 mm.

Artisanal brown non-enamelled pot : 475*360*90 mm.

2-trunks sokan style. Diameter of the trunks : 30 to 35 mm. Nebari of : 200 x 300 mm.

This bonsai is more than 40 years old, coming from seedlings with small natural needles. Formed trays.

The bark is beautiful at the base of the trunks.

Absolutely requires a full sun exposure. The trunk is very well conical. No strong cutting wound or wire marks. Beautiful roots base, with a patina aspect made with years.

Ligaturing it would enable you to place better the trays in order to refine the beauty of this subject.

Photographed in June 2022. Shelf not included.
