Description

Height of the only tree : 400 mm.

Width of the branches : 520 mm.

Dimensions of the quality non-enameled fired pot from Yixing : 300*240*100 mm.

Short and softly blue-toned needles. 2-trunks Soka style.

There is a shari on the front side of the base of the trunk : beautiful asset of this bonsai. This bonsai is more than 50 years old with its formed bark. It comes from yamadori, more than 30 years ago. It is well-ramified and the trunk has a good conicity. No grafting marks since it is a natural seedling, nor strong wire marks or cutting wound.

Diameter of the trunk : 30-45 mm. Superb and regular nebari : 90-130 mm. Quality subject for a collector who will take time to cut it regularly to densify the trays. Admire the natural beauty of its trunk shari. Photographed in September 2022. It comes from Murakawa nursery. The shelf is not included.
