

## Pinus pentaphylla zuisho ref :01060231

*Pinus pentaphylla zuisho*

ref. 11961

[+] [Show on the website](#)

### Description

Height of the only tree : 700 mm.

Width of the branches : 500 mm. Dimensions of the Chinese quality non-enamelled pot from Yixing : 390\*40 mm. Short and blue toned needles. Zuisho variety with very small and particularly gracious needles. Fast growth compared with the standard *pinus pentaphylla*. Diameter of the trunk : 60/75 mm.

Diameter of the nebari : 190/220 mm. Moyogi style. This bonsai is more than 45 years old and has a formed bark. Uncommon subject with gracious curves.

Coming from aerial layering, no grafting mark. No strong cutting wounds or wire marks. Quality subject for bonsai lovers. It was completely reformed by Master Tomoya Nishikawa in February 2020. It comes from Master Mori, Angyo nursery in the south of Japan. Photographed in May 2023. Shelf not included.
