Description

Japanese Garden Stone Lantern in Sand Brown Color.

This Japanese garden lantern is crafted from natural stone in a sand brown hue, standing at a height of 120 cm and composed of 5 easily transportable elements, with a total weight of 180 kilograms.

The lantern is designed with a central opening along its height to accommodate a lamp.

Approximate Measurements of Individual Elements:

- The pedestal: 45*35*12 cm.
- The column: h 55*30*28 cm.
- The tray supporting the cage: 48*35*12 cm.
- The cage, where a candle or LED spot can be placed: 24*19*15 cm.
- Width of the cap approximately 65*50*18 centimeters.
- The highest point on the cap: 18*12 cm.

Our garden elements, including basins, granite lanterns, stones, and Japanese stepping stones, are typically stored outdoors.

This is because the natural patina and weathered appearance, with the growth of lichens and moss, contribute an additional layer of authenticity highly appreciated in traditional Japanese garden art.
