

Juniperus chinensis var : itoigawa ref:16080246

Shinpaku juniper

ref. 12099

685,00€

[\[+\] Show on the website](#)

Description

Tree height (excluding pot): 250 mm
Branch spread: 330 mm
Navy blue glazed pot: 200 x 120 x 65 mm
Style: Moyogi

Requires generous watering in summer and regular fertilization throughout the growing season.

Well-ramified specimen with graceful branch pads, a shari on the trunk and several jins, with no major pruning scars or wire marks. For enthusiasts.

Itoigawa variety with fine, vibrant green scales, particularly vigorous and well-suited for bonsai cultivation. Loses very little foliage in early summer, unlike the standard *Juniperus chinensis* type.

Sold without display stand.
Photos taken in October 2024.
