Description

Height of the tree only: 14.5 cm.

Length of the bough: 15.5 cm.

Japanese enamelled pot signed by the artist: 15*12*3 cm.

Bonsai stand not included.

A collector's item, the main highlights of this Japanese zelkova bonsai are the neatly serrated leaves that turn a fiery orange in autumn. The broom hokidachi style has extensive, fine branches, visible in winter when this deciduous tree loses its leaves. In spring and summer it sprouts vibrant green lance-shaped leaves, complementing the smooth grey bark.
