### Description

Masterpiece – Collector's Item

On or about 60 years old.

The tree measures 980 mm in height with a branch width of 770 mm.

It is planted in a handcrafted Japanese pot measuring 620 x 450 x 75 mm, in a sand grey color.

This superb shallow pot highlights the beauty of the bonsai, evoking a strong emotional response from the viewer.

There are no major pruning scars or visible wire marks.

The style is Sokan (twin-trunk), with trunk diameters of 60 mm and 90 mm, and a nebari of 400 to 420 mm.

This bonsai is a five-needle pine grown from natural seed, featuring vibrant green, fine, and short needles.

It is rare to find white pines of such beauty in the twin-trunk style.

The perfect taper of the trunks, remarkable bark texture, harmonious branch placement, and well-balanced overall proportions make this pine an exceptional specimen, ideal for discerning collectors.

Origin: Me Shiraichi-san Nursery Photos taken in October 2024 (stand not included).
