Description

Dark pink-purple spring foliage with visible veins of the most beautiful effect, during the summer the foliage becomes dark with new bright red shoots and in autumn red-orange color. Large sheet of +- 5/8 cm wide at maturity. 3 liter pot 30 to 40 cm height.

One of the most beautiful varieties of the last 15 years. Unique in its kind for its vigor and robustness, supports full sun.

In response to the growing demand in Europe for collectible varieties, I am offering younger, high-quality plants this year. These plants, measuring between 10 and 20 centimeters in height, are perfect for enriching your collection right from the start of their development.
Please note that they must remain in their original pots until spring 2026. Fertilizer has already been added to the substrate, providing sufficient nutrients for the entire year of 2025. Keep a close eye on watering and shelter it from the wind; a spot in partial shade will suit it best.

Technical description

Species	Acer palmatum
Variety	Celebration baby size
Leaf colour	Violet
Leaf shape	Palmated
Adult height	Between 2 and 4 meters
Shape	Natural
Exposure	Sun
