Description

Crimson spring foliage sped along with obvious ribs of the most beautiful effect, during the summer foliage becomes dark with new shoots quick red and in fall orange red coloration. Big leaf of + - 5/8 cm of width has maturity.

One of the most beautiful variety of these last 15 years.

Unique in his/her/its kind of by his/her/its vigor and his/her/its hardiness, support the full sun.

In response to the growing demand in Europe for collectible varieties, I am offering younger, high-quality plants this year. These plants, measuring between 10 and 20 centimeters in height, are perfect for enriching your collection right from the start of their development.
Please note that they must remain in their original pots until spring 2026. Fertilizer has already been added to the substrate, providing sufficient nutrients for the entire year of 2025. Keep a close eye on watering and shelter it from the wind; a spot in partial shade will suit it best.

Technical description
