Description

White, light yellow foliage when the buds burst with the tips of the blades blood red.

Turns green with visible veins during the summer and a beautiful coppery orange in the fall. Very original, uncommon in cultivation.

In response to the growing demand in Europe for collectible varieties, I am offering younger, high-quality plants this year. These plants, measuring between 10 and 20 centimeters in height, are perfect for enriching your collection right from the start of their development.

Please note that they must remain in their original pots until spring 2026.

Fertilizer has already been added to the substrate, providing sufficient nutrients for the entire year of 2025. Keep a close eye on watering and shelter it from the wind; a spot in partial shade will suit it best.

Technical description

<i>Species</i>	Acer matsumurae
<i>Variety</i>	Phantom flame baby size
<i>Leaf colour</i>	Veined
<i>Leaf shape</i>	Palmated
<i>Adult height</i>	Less than 2 meters
<i>Shape</i>	Natural
<i>Exposure</i>	Partial shade
