Description

A recent introduction among Japanese maples, Emerald Isle was selected by Buchholz Nursery. This variety stands out with its large chartreuse green leaves featuring deeply divided lobes, which mature to a rich emerald green in summer. In autumn, the foliage lights up in vibrant shades of red, deepening to burgundy. Vigorous yet moderate in size, Emerald Isle reaches 2 to 3 meters (6.5 to 10 feet) in ten years, making it an excellent choice for medium-sized gardens.

Technical description

<i>Species</i>	Acer palmatum
<i>Variety</i>	Emerald isle
<i>Leaf colour</i>	Green leaves
<i>Leaf shape</i>	Palmated
<i>Adult height</i>	Between 2 and 4 meters
<i>Shape</i>	Natural
<i>Exposure</i>	Sun
