### Description

Tree height (without pot): 750 mm – Branch spread: approximately 700 mm  
Glazed pot: 590 x 450 x 70 mm A raft style bonsai featuring seven trunks with well-formed branch pads. No visible wire scars or major pruning wounds. Branches are evenly and alternately distributed. The foliage offers stunning seasonal colors: pink and red in spring, green in summer, then vibrant fiery red-orange in autumn. A sunny exposure is recommended to enhance the autumn foliage coloration. This beautiful specimen has been refined to perfect its branching. It originates from air-layering, ensuring no grafting marks and a superb, regular nebari. An exceptional bonsai, ideal for collectors. Stand not included. Origin: Imai Chiaru Nurseries, renowned in Japan for the quality of their masterpieces. From Guy Maillot collection for more than 20 years.
