Description

Pinus parviflora 'Nasu Goyo' – Ref: [to be completed]

Tree dimensions: height (without pot) 450 mm, branch spread 700 mm Pot: high-quality artisanal Yixing pot (China), chocolate brown, unglazed, Ø 330 × 130 mm Style: Han-Kengai (semi-cascade) Characteristics: presence of shari and jin. Appreciate the naturally twisted trunk base and well-formed branch pads. Very fine trunk sinuosity, diameter 70–80 mm, nebari 200 mm. No major wire scars or severe pruning wounds. Produced by air-layering, with no grafting marks. Foliage: Nasu Goyo variety with very short needles (~2 cm), excellent for back-budding, allowing dense pad formation. Origin: Japan, Master Shino-san Photographs: March 2025 Special features: a truly original and exceptional specimen, evoking strong emotion. Despite its modest size, it represents a pure traditional bonsai, highly sought after in Japan and Europe.
