### Description

Tree height (without pot): approx. 750 mm

Width: 680 mm Magnificent, exceptional bonsai presented in a high-quality, signed, handmade unglazed Yixing pot (Ø 600 x 120 mm). Moyogi style with a powerful trunk (Ø 120–140 mm at the base) and an impressive nebari of 300–320 mm. This is the “KINSAI” variety, renowned for its spectacular flowers with fine, orange-red linear petals. The tree features a beautifully balanced and harmonious root spread, with well-formed branch pads. No large pruning scars or wire marks. Easy to grow, it thrives in full sunlight and benefits from good fertilization after flowering. Photographed in October 2025. An outstanding bonsai for the discerning collector, combining strength, elegance, and rare beauty.
