

Japanese cast iron lantern wind bell g75

› *Wind bells and chimes*

ref. 4671

[\[+\] Show on the website](#)

Description

20 * 16 cm. Handmade by skilled cast ironware artisans, this Japanese lantern wind chime in dark green features a decorative grill and slightly bumpy surface that's pleasing to the touch. Hanging below is a traditional temple-style bell that rings as the paper label blows in the wind. A fine example of traditional craftsmanship made in Morioka city, which is famous for its ironware products.
