

Ficus retusa bonsai ref: 7208

Ficus retusa

ref. 7208 

[\[+\] Show on the website](#)

Description

Height of the tree only: 83 cm.

Width of branches 90 cm.

Quality brown non-enamelled pot: 63*41*12 cm.

Root base Ø 40 cm.

The ficus retusa has exceptional aerial roots similar to those of trees in mangrove swamps. The healthy conical-shape canopy of small, shiny green leaves springs from a clump style trunk. A shallow pot with cloud feet was chosen to enhance the harmony of the tree.

This indoor bonsai is easy to keep inside your house, but avoid drafts. Ideal temperature 18/28°.

Maillot-Bonsai buys from only the best bonsai nurseries in Asia. International delivery is possible, [see details](#).
