Description

Outside measurements: Ø 240*67 mm. Interior measurements: Ø 220*52 mm. Direct from Josef Valuch's pottery in Czechoslovakia comes this round pot that's perfect for small bonsai or kusamono. This is a one-off edition, signed by the talented potter. We only have one of this design because each pot is handmade and unique. It's made from frost-resistant sandstone and fired to a high temperature for added strength. Numerous drainage holes are useful considering the frequent watering a bonsai requires. The dark brown colour and matt surface are complemented by a rough interior showing the potter's tool marks, which also makes it easy to lift out the tree.
