### Description

Coming from a hybridization of hosta 'Abiqua drinking gourd'.

Dimensions of the plant :  about 55 x 90 cm.

Dimensions of the leaves : about 25 x 18 cm.

The leaves of this variety are intense blue colored and the sides are small and creamy white colored. All the characteristics of its parent 'Abiqua drinking gourd' appear, which the strongly corrugated leaves twist on themselves.

The flowers of this variety are white and arrive in the beginning of summer.

This hosta is known for resisting to snails.

**Big rhizome delivered in a 1 liter plastic pot.**
