Description

Height of the only tree: 450 mm, width of the branch + - 340 mm. Oval pottery enameled of: 280*220*50 mm. Style moyogi, trays formed not of injuries of sons nor very strong wounds of sizes. Descended of an aerial marcottage. Good distribution of the alternate branches. Green spring coloration to aim to the uptight leaves, red orange fire in fall. Sunny exhibition, to get a beautiful coloration of foliage in fall. Beautiful topic been back at work to perfect the ramifications of it. Photo of June. Descended of the nurseries Japanese Takahashis. For amateur. Non included support. Photos summer 2014 and January 2015.
