Description

Height of the tree without its pot: 540 mm. Width of the branches: 690 mm. Planted on a pot in form of shell, artificial rock imitation of: 740 x 300 x 60/80 mm. Kabudachi style. Bonsai aged of more than 45 years old, from seeding, with its formed silhouette and its beautiful bark. \varnothing of the trunk: about 10 to 35 mm, depending on the subject. 9-trunk composition including one treated barked wood. Absolutely requires full-sun.

Well-conical trunks without any strong cutting wound or wire mark, pretty roots base. Formed bark. Currently ligatured with copper wire. From Ken Fujiwara's nursery.

Very beautiful harmonious and well-balanced realisation.

These pictures were taken in april 2017.
